PROFESSIONAL SUMMARY

Senior Frontend Engineer with 9 years of experience architecting and scaling web applications, including complex B2B platforms at LATAM's largest consumer review ecosystem. Proven track record of spearheading microfrontend migrations, optimizing CI/CD delivery pipelines, and pioneering AI-driven (LLM) agents. Pragmatic problem solver focused on high-performance architectures (Next.js, Astro), zero-JS default environments, and measurable workflow automation.

SKILLS

- **Languages & Core:** TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- **Frontend Ecosystem:** React.js, Next.js (App Router, Server Components), Astro, Web Components, CDN architecture
- **Full-stack & AI:** Google Gemini AI, Windmill orchestrator, Supabase (PostgreSQL, pgvector), Telegram / Meta WhatsApp APIs
- **Quality Assurance:** React Testing Library, Jest, Playwright (E2E), Storybook

EXPERIENCE

Senior Frontend Developer | *Reclame AQUI, Brazil* | **Apr 2026 - Present**

- Spearhead architectural decisions and provide technical leadership for high-visibility B2B platforms and consumer-facing workflows.
- Mentor cross-functional squads to drive adoption of modern React patterns and performance budgeting.

Frontend Developer (Mid-level / Pleno) | *Reclame AQUI, Brazil* | **Feb 2023 - Apr 2026**

- Maintained and scaled front-end architecture for LATAM's premier consumer platform, ensuring high performance during massive global traffic events.
- **Component Delivery Architecture:** Architected and proved a CDN-driven microfrontend delivery strategy. Bypassed npm registry bottlenecks, slashing component deployment cycles across squads from days to hours, supercharged by AI coding tools (Cursor).
- **Multi-tenant Identity System:** Engineered the frontend transition from isolated legacy accounts to a modern email-based, role-restricted multi-tenant system using Astro and React, directly enabling the business to monetize new premium B2B subscription tiers.
- **A/B Testing & Conversion:** Built an independent microfrontend for the B2B Company Registration flow. Validated via Unleash A/B testing to successfully eliminate funnel friction drop-offs, executing a data-driven replacement of the legacy monolith flow.

Freelance Product Architect & Full-stack Engineer | *Independent* | **2025 - Present**

- **Diário Fit (2026):** Developed a self-hosted Telegram bot backend (Bun/Windmill) integrated natively with Gemini AI for habit tracking, paired with a secure, highly-performant Next.js dashboard leveraging Supabase RLS policies.
- **Larlink AI Real Estate Agents (2025):** Architected the core orchestration backend for a B2B SaaS platform handling multi-modal WhatsApp conversations via pgvector semantic search. Delivered a centralized React portal for seamless human-handoff, automating 100% of the initial lead qualification stage.
- **Portfolio & Case Study Platform (erbsu.com):** Built a zero-JS default, Playwright-tested Astro ecosystem validated strictly for performance. Achieved verified **100/100 Lighthouse scores** across A11y, Performance, Best Practices, and SEO, while demonstrating 3x faster AI-assisted CI/CD velocity.

Frontend Developer (Junior) | Reclame AQUI, Brazil | Apr 2021 - Feb 2023

- Developed UI components and maintained front-end applications, standardizing the codebase utilizing React.js and ContextAPI.

Technical Account Consultant | Reclame AQUI, Brazil | Apr 2017 - Mar 2021

- Managed enterprise-grade API integrations, acting as a technical liaison and maintaining comprehensive Postman documentation.
- Executed structured SEO data pipelines (Rich Snippets), boosting e-commerce product visibility.

EDUCATION

Postgraduate Degree, Data Science | Descomplica Faculdade Digital | Jan 2026 - Jan 2027

Postgraduate Degree, Software Engineering | Descomplica Faculdade Digital | Mar 2024 - May 2025

Bachelor's Degree, Information Systems | UNISEP - União de Ensino do Sudoeste do Paraná | 2013 - 2016

CERTIFICATIONS, AWARDS & EXTRAS

- **Certifications:** SEO para Devs, ReactJS Accessibility, Next.js App Router & Testing, DevOps Culture Fundamentals.
- **Community & Talks:** Speaker at tech community events (e.g., DevParaná), sharing practical insights on frontend performance and architecture.
- **Awards:** 1st Place Hackathon Winner (Retail Solutions - Southwest Paraná).
- **Languages:** Portuguese (Native), English (Professional Working Proficiency).
